Austin Macauley Publishers. Paperback. Book Condition: new. BRAND NEW, My Interest in Our Universe and Why We are So Lucky to be Here, Tony Fellows, I became aware of just how fragile life is, and how lucky we are to be here. It was alarming to realise just how insignificant we as human beings are in our Universe. Wanting a way to share his love of the universe with his family, Tony Fellows began to jot down his musings on our universe and beyond. What follows is an informal and amusing look at quantum physics which explains things in a way that anyone - even the least scientifically minded, can understand. From our humble beginnings and the Big Bang to what our future may hold in our ever-expanding universe, it is all scoped out in this book. Drawing on scientific research from the 1600s to today, this is a million miles away from a being a dull lecture and you will find yourself musing on life's big mysteries from the very first page.
