If so, don t worry, you fall into the same category as 90 of the poker-playing population. But the goal is to move out of that category and into the top 10 -- the profitable category! The strategies presented in Poker Blog are a continuation of what is offered in Poker Notes. These are separate strategies, not repeat strategies. If you read either Poker Notes or Poker Blog, you re going to be a stronger poker player. If you read both, you will significantly increase your odds of being a long-term winner. This book is not written for professionals. It s written for poker players who are sick of losing and want to turn the tables on their foes. It s also written in a friendly and easy-to-understand style. This makes it much easier for novice and intermediate players to understand and implement poker strategies that should lead to a lot more success.
